Many people of this locality have visited the fair, while many others will attend later. Those, however, who are not financially able to attend, will be content to remain at home and get as much information as possible from the papers, and draw largely on an active imagination for the remainder.

To attend the fair is one thing, and to see and get information is quite another thing. It will require but little money simply to "go to the fair," but if you see very much, it certainly will draw pretty heavily on your cash account.

Carrol McGee of Irondale was in this locality last week. P.
